

The new era of Location Tracking

**CROWD
LOC**

Celebrating 50 years of location tracking!

Transit A1 Satellite - 1967

USS Segundo

A new Era for location tracking?

A vivid, growing market in historical segments

New opportunities driven by:

- Market demand (consumer, B2B)
- New, disruptive technologies

*Installed base of active fleet management units
(EU27+2 2015–2021)*

*Installed base of active fleet management units
(Americas 2016–2021)*

New markets for location tracking

A few examples with 100+ million trackable items markets

- Bicycle
- Pets
- Luggage
- Consumer Electronics
- B2B

Bicycle Theft

France

- 1 million stolen bicycle / year stolen cars

United Kingdom

- 500 000 stolen bicycle / year
- UK insurance data 17% of claims (Direct Line)

Germany

- 300 000+ per year?

United States

- Estimated 2 million bicycle stolen

Pets

455 Million
Cats & Dogs
Across Europe & US

Percentage of dog owners who have lost a pet at least once in the past 5 years (US)

Percentage of cat owners who have lost a pet at least once in the past 5 years (US)

In Europe, 1 pet out of 3 gets lost

Luggage

21.6 Million luggages lost in 2016

75% of passengers want to receive information about the location of their bags on their smartphones

Source: SITA

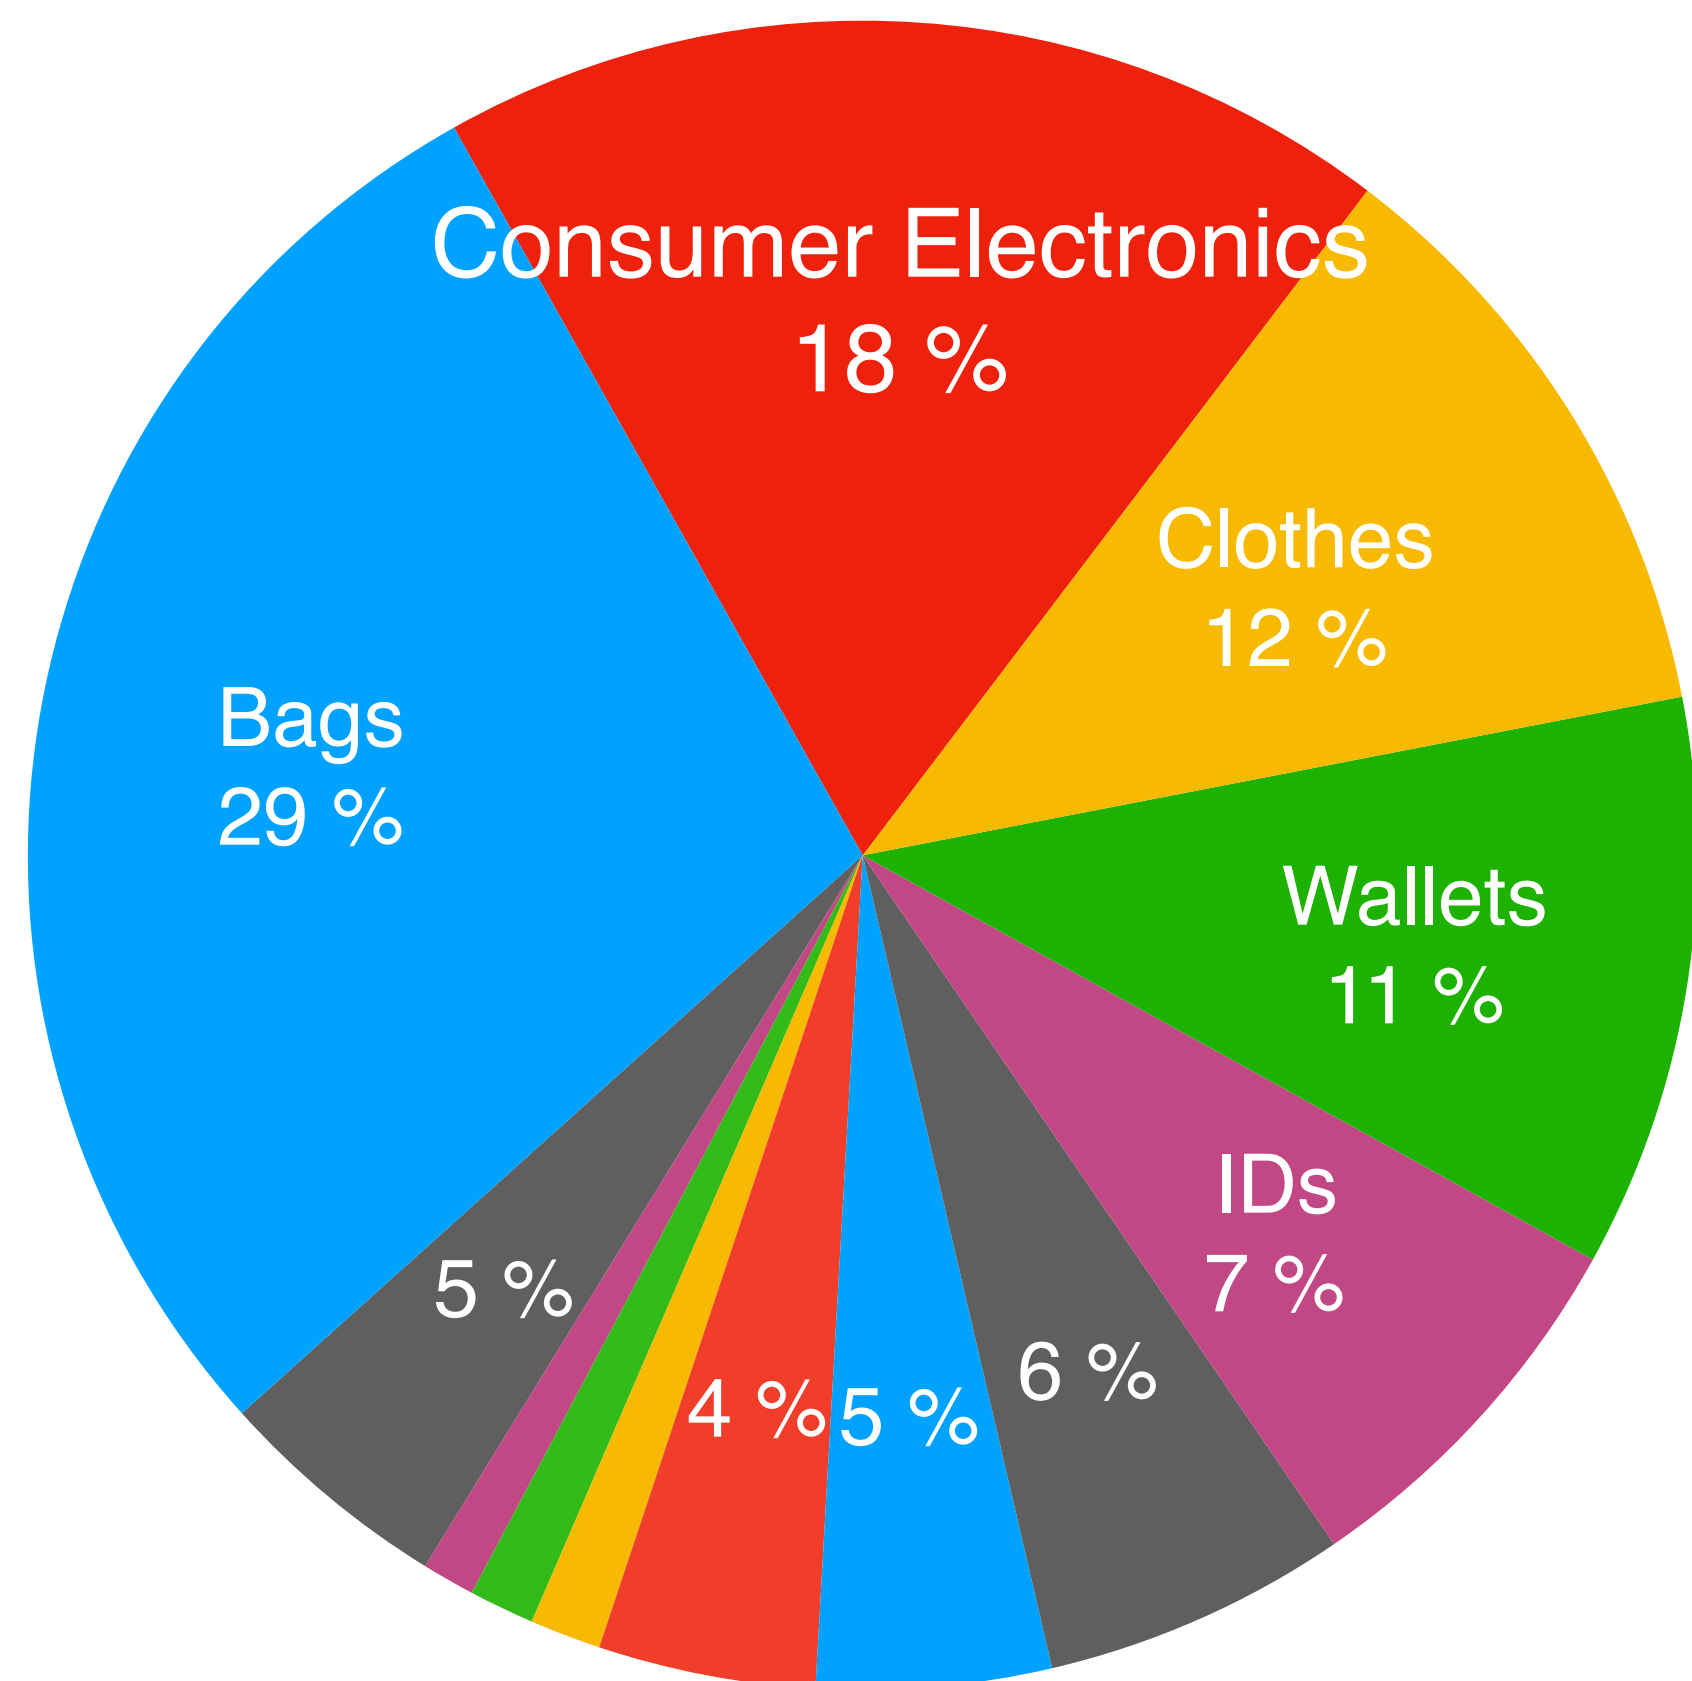

Consumer Electronics devices get lost

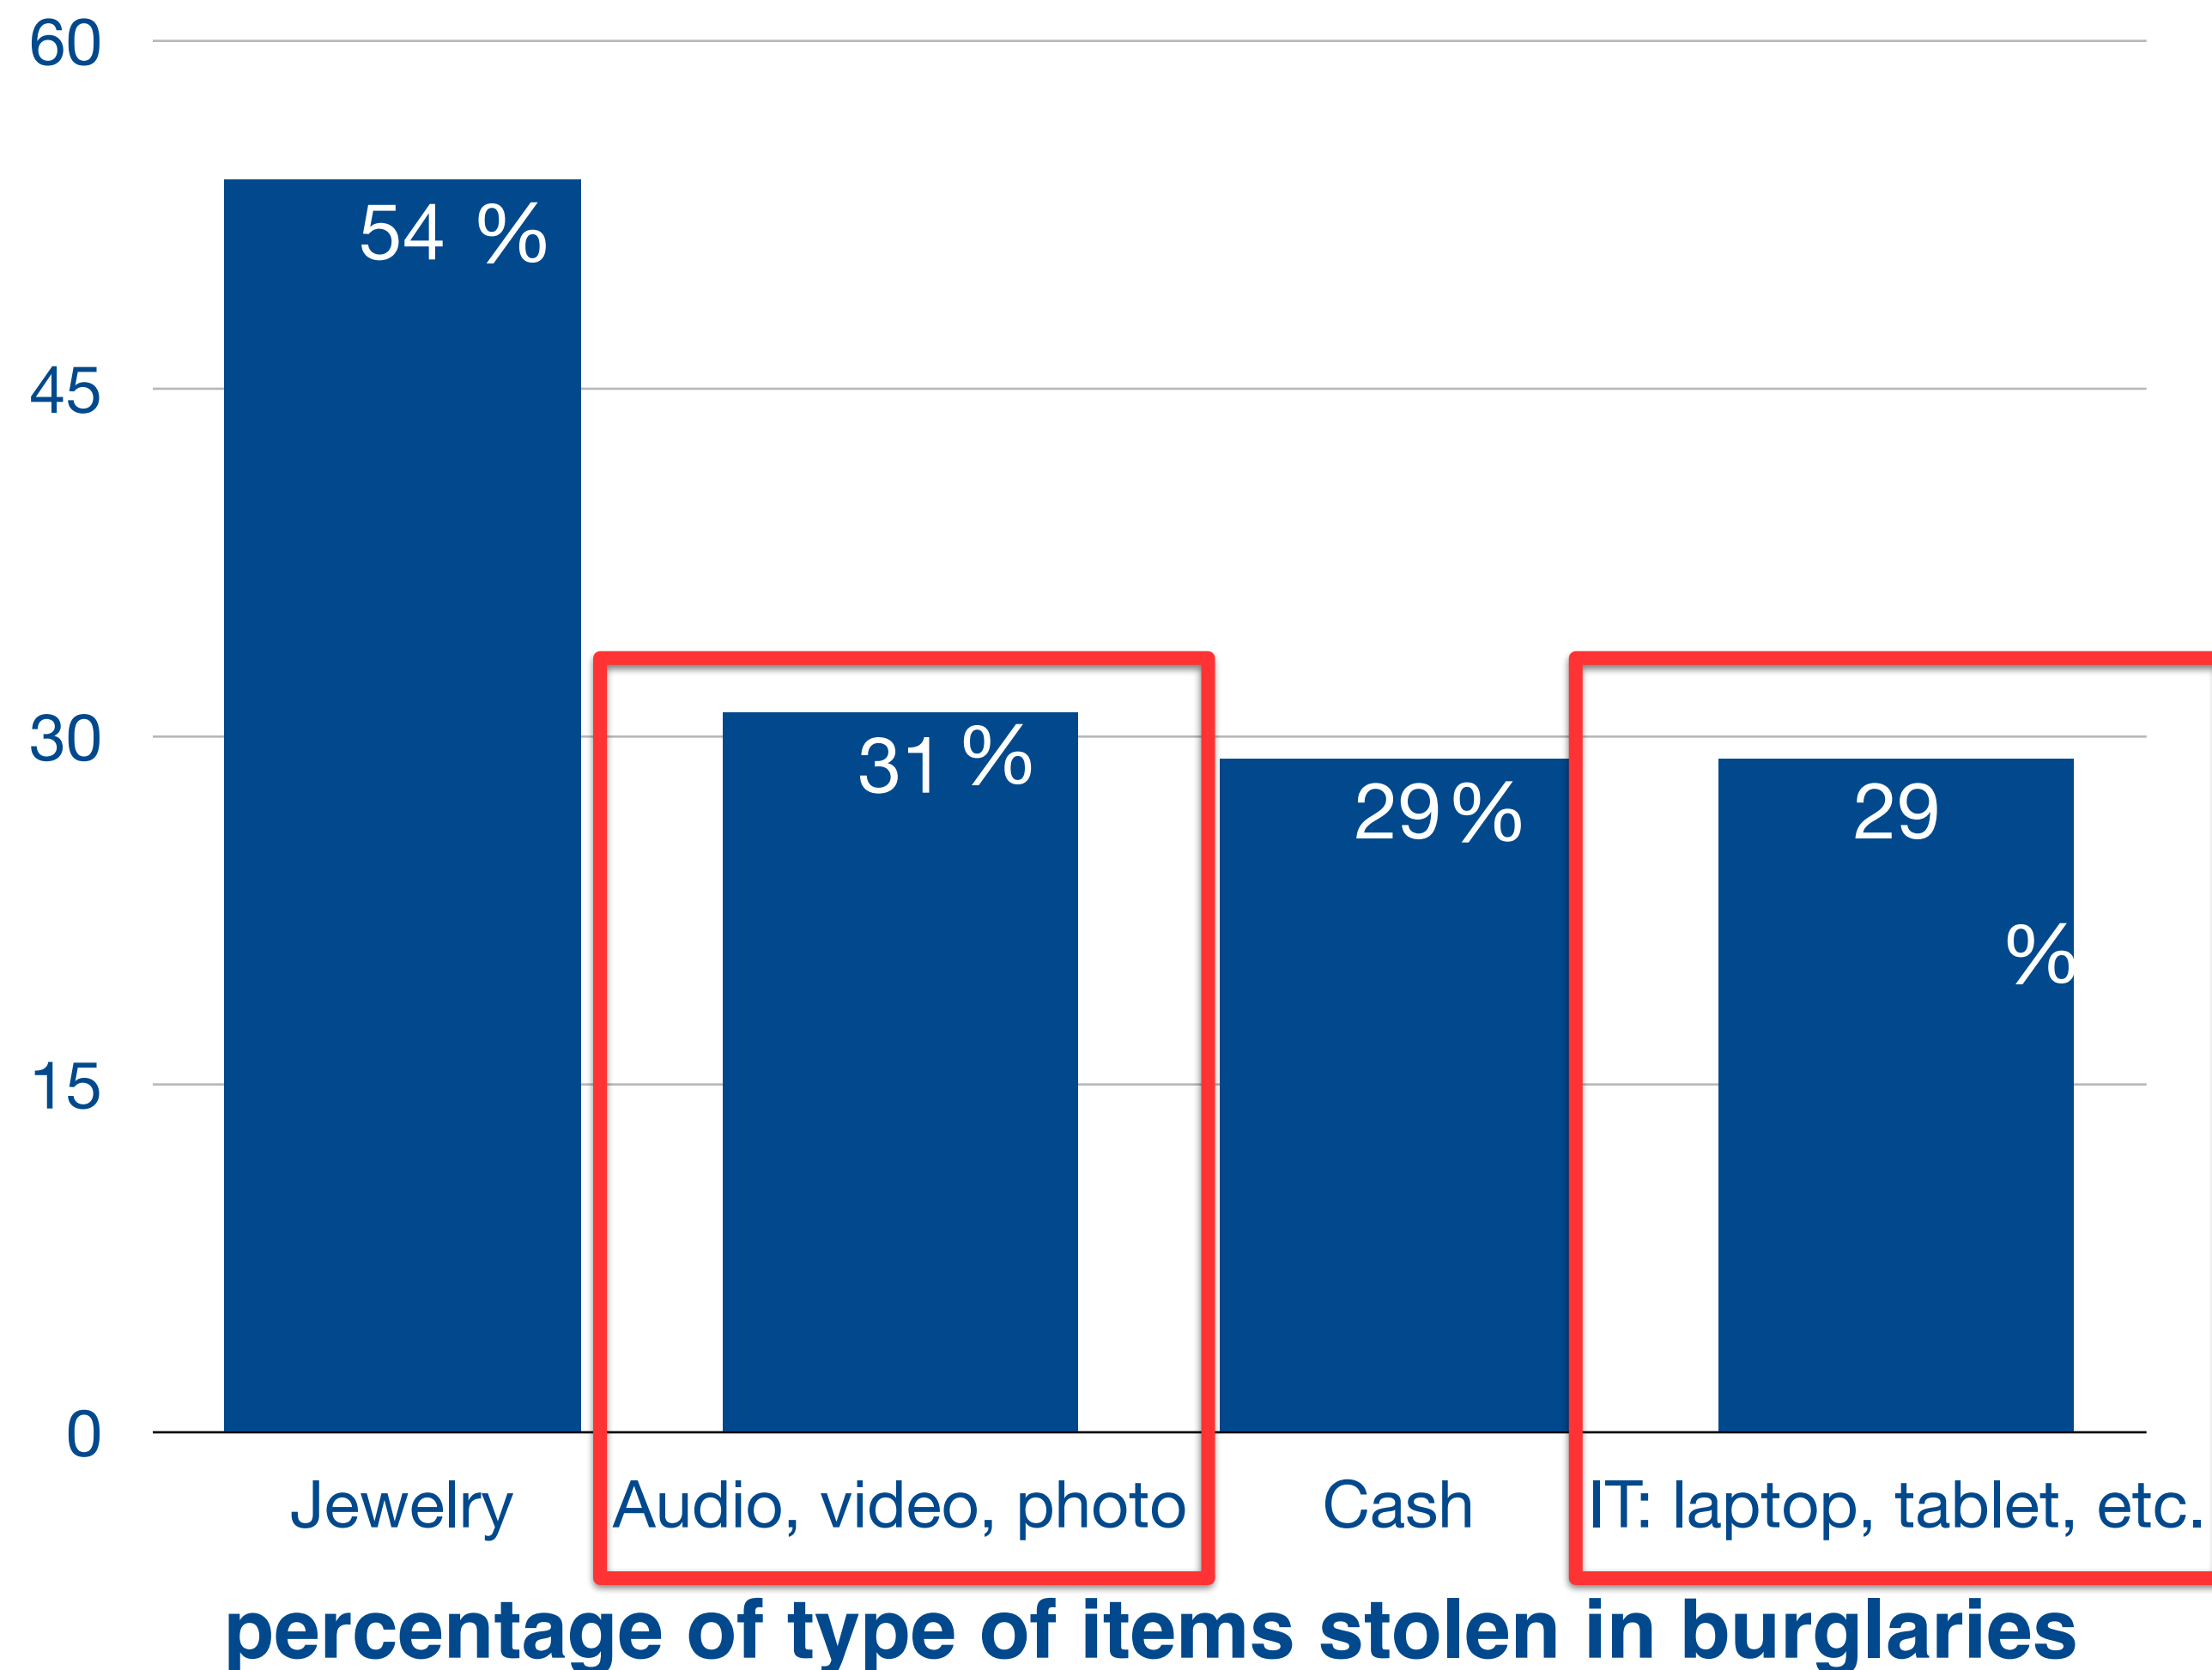

Consumer electronics is the second largest lost item category in public transports after bags.

French railways SNCF open data on lost items

(statistics on 126,153 items collected between Jan-Aug 2017)

Consumer Electronics devices get stolen

**Consumer Electronics
are stolen
in 1/3 of burglaries**

French police statistics - 2013-2015
panel of 16,000 respondents.

**Insurance claims for burglary
cost an average €1.6B/year
to insurers across UK,
Germany & France.**

B2B tracking

Market size driven by cost

2008

How long does Whistle 3's battery last?

On average, the battery lasts up to 7 days depending on the strength of Wi-Fi and cellular coverage. The Whistle 3 app will tell you when it's time to charge. The more time your pet spends out of Wi-Fi range, the quicker the battery will drain. We recommend charging every 2-3 days to ensure they are always covered. We will send you a notification when your battery needs to be charged, and a full recharge only takes 2 hours!

2017

Solving Cost & Power Consumption

Cost & power reduction Opportunities

Connectivity

Location Tech

Low Power Wide Area Networks

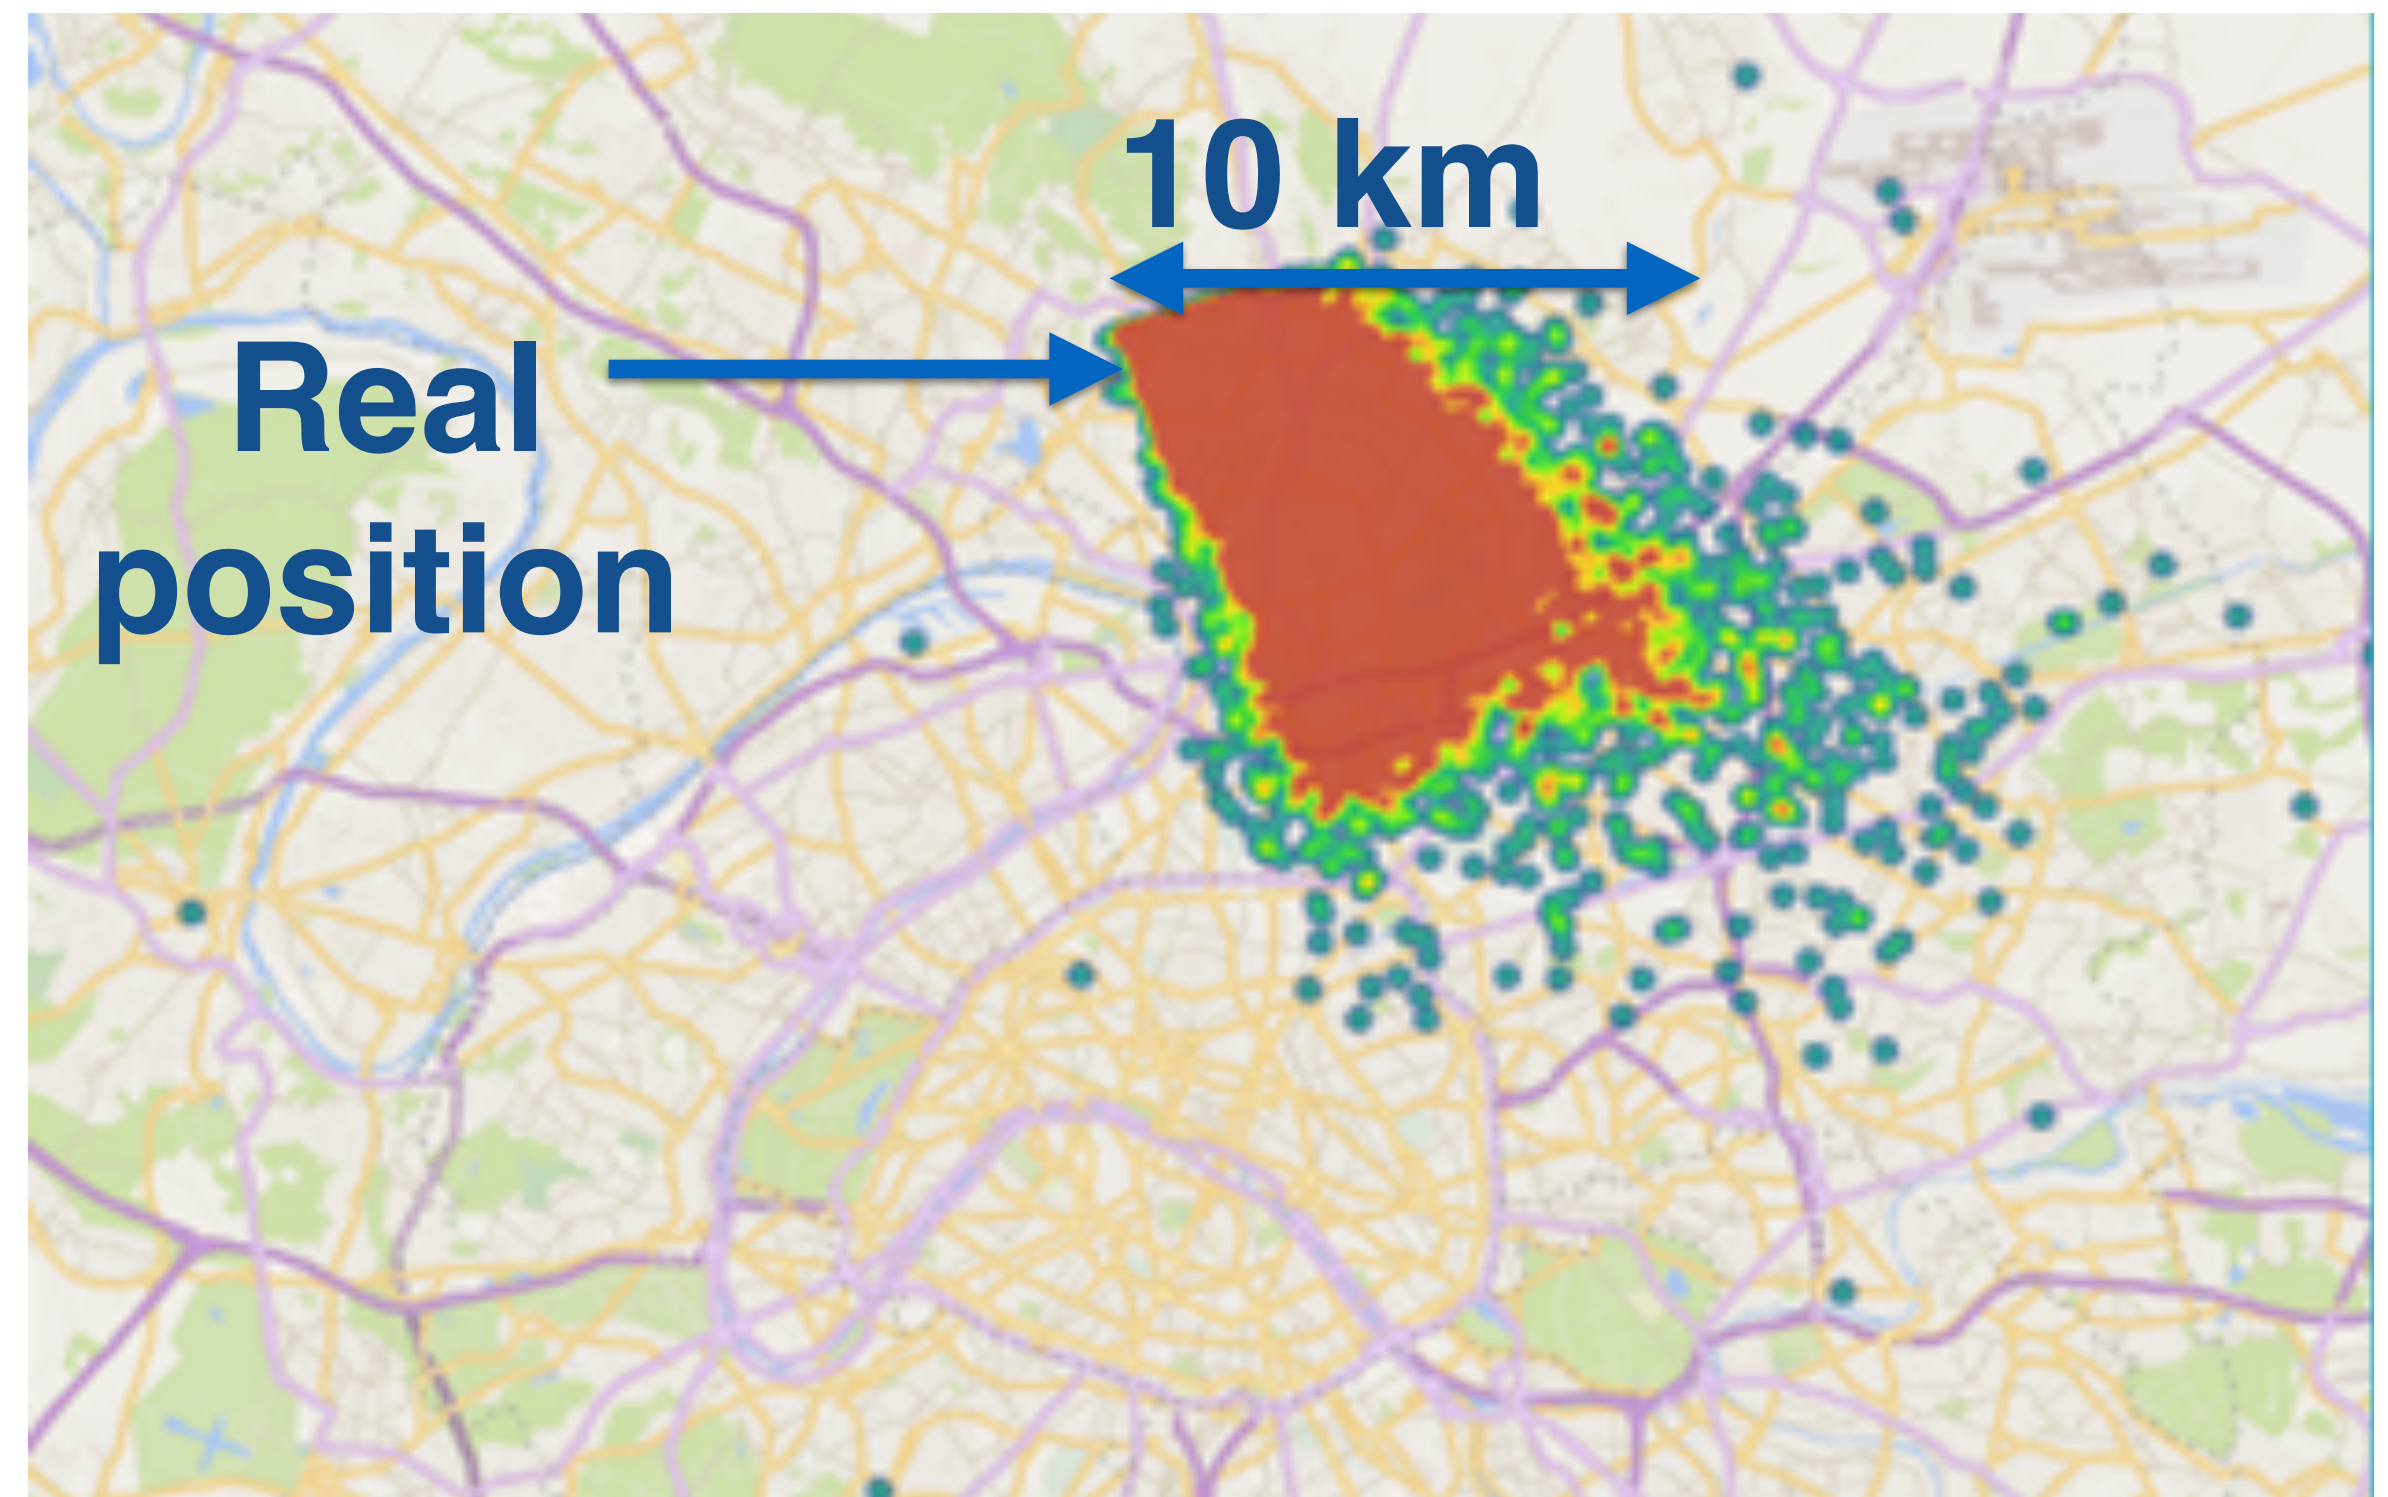

- Small bandwidth networks
- Lower infrastructure cost
- Low power consumption for receiver

LPWAN location problem

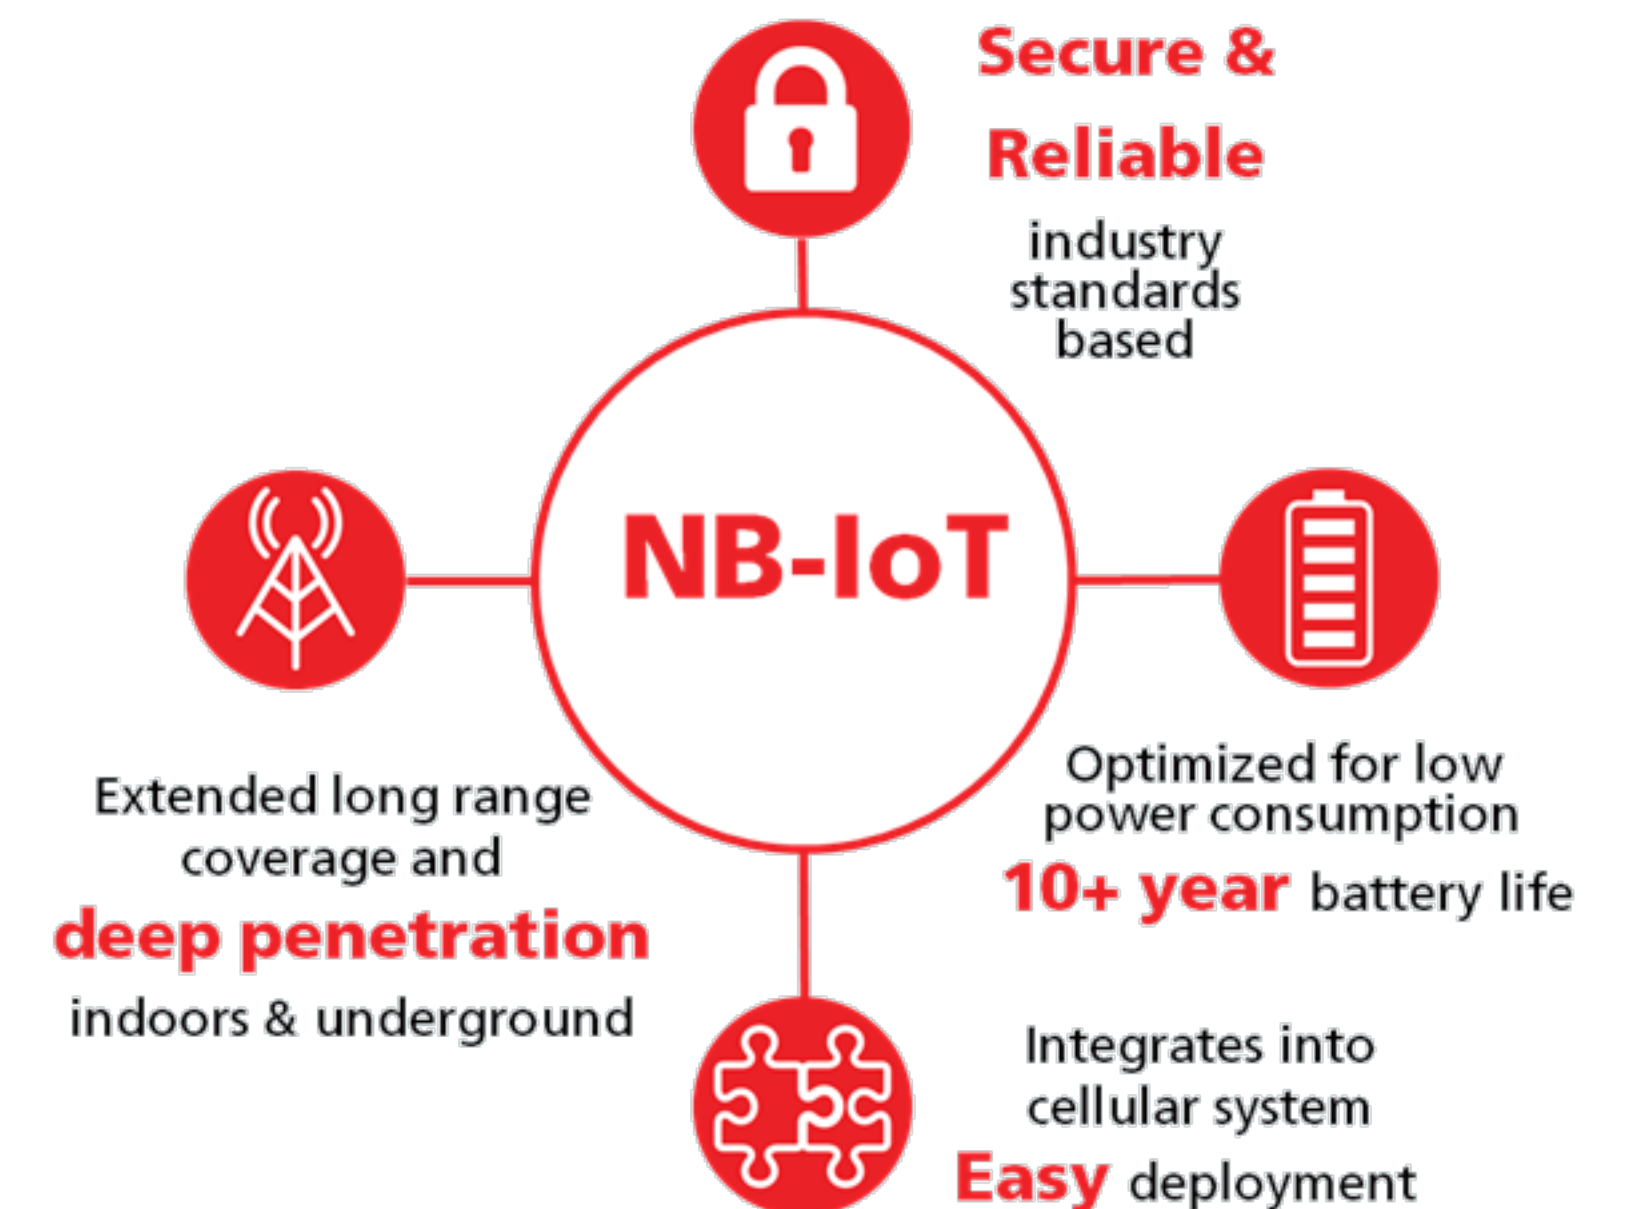

Roadie - €99
LoRa+ GPS+ Wifi
Up to 8 months battery (?)

Network-based positioning accuracy

3GPP Standards: LTE-M & NB-IOT

- Next big things in IoT driven by cellular infrastructure vendors & wireless operators.
- But
 - Coverage not yet available
 - Competition of 2 standards
 - Receiver still very expensive
 - Location problem similar to LPWan

Bluetooth Low Energy

- Mature technology
- Wide ecosystem
- BLE in Smartphones
- Consumer Electronics
- Widely available, very affordable beacons

Bluetooth myth: short distance

- Bluetooth 4.0 Beacon (TI chipset, PCB antenna)
- Hidden in spare wheel compartment of car trunk
- Signal received by iPhone 6 at 135m distance in an urban street

Collaborative Location with Bluetooth

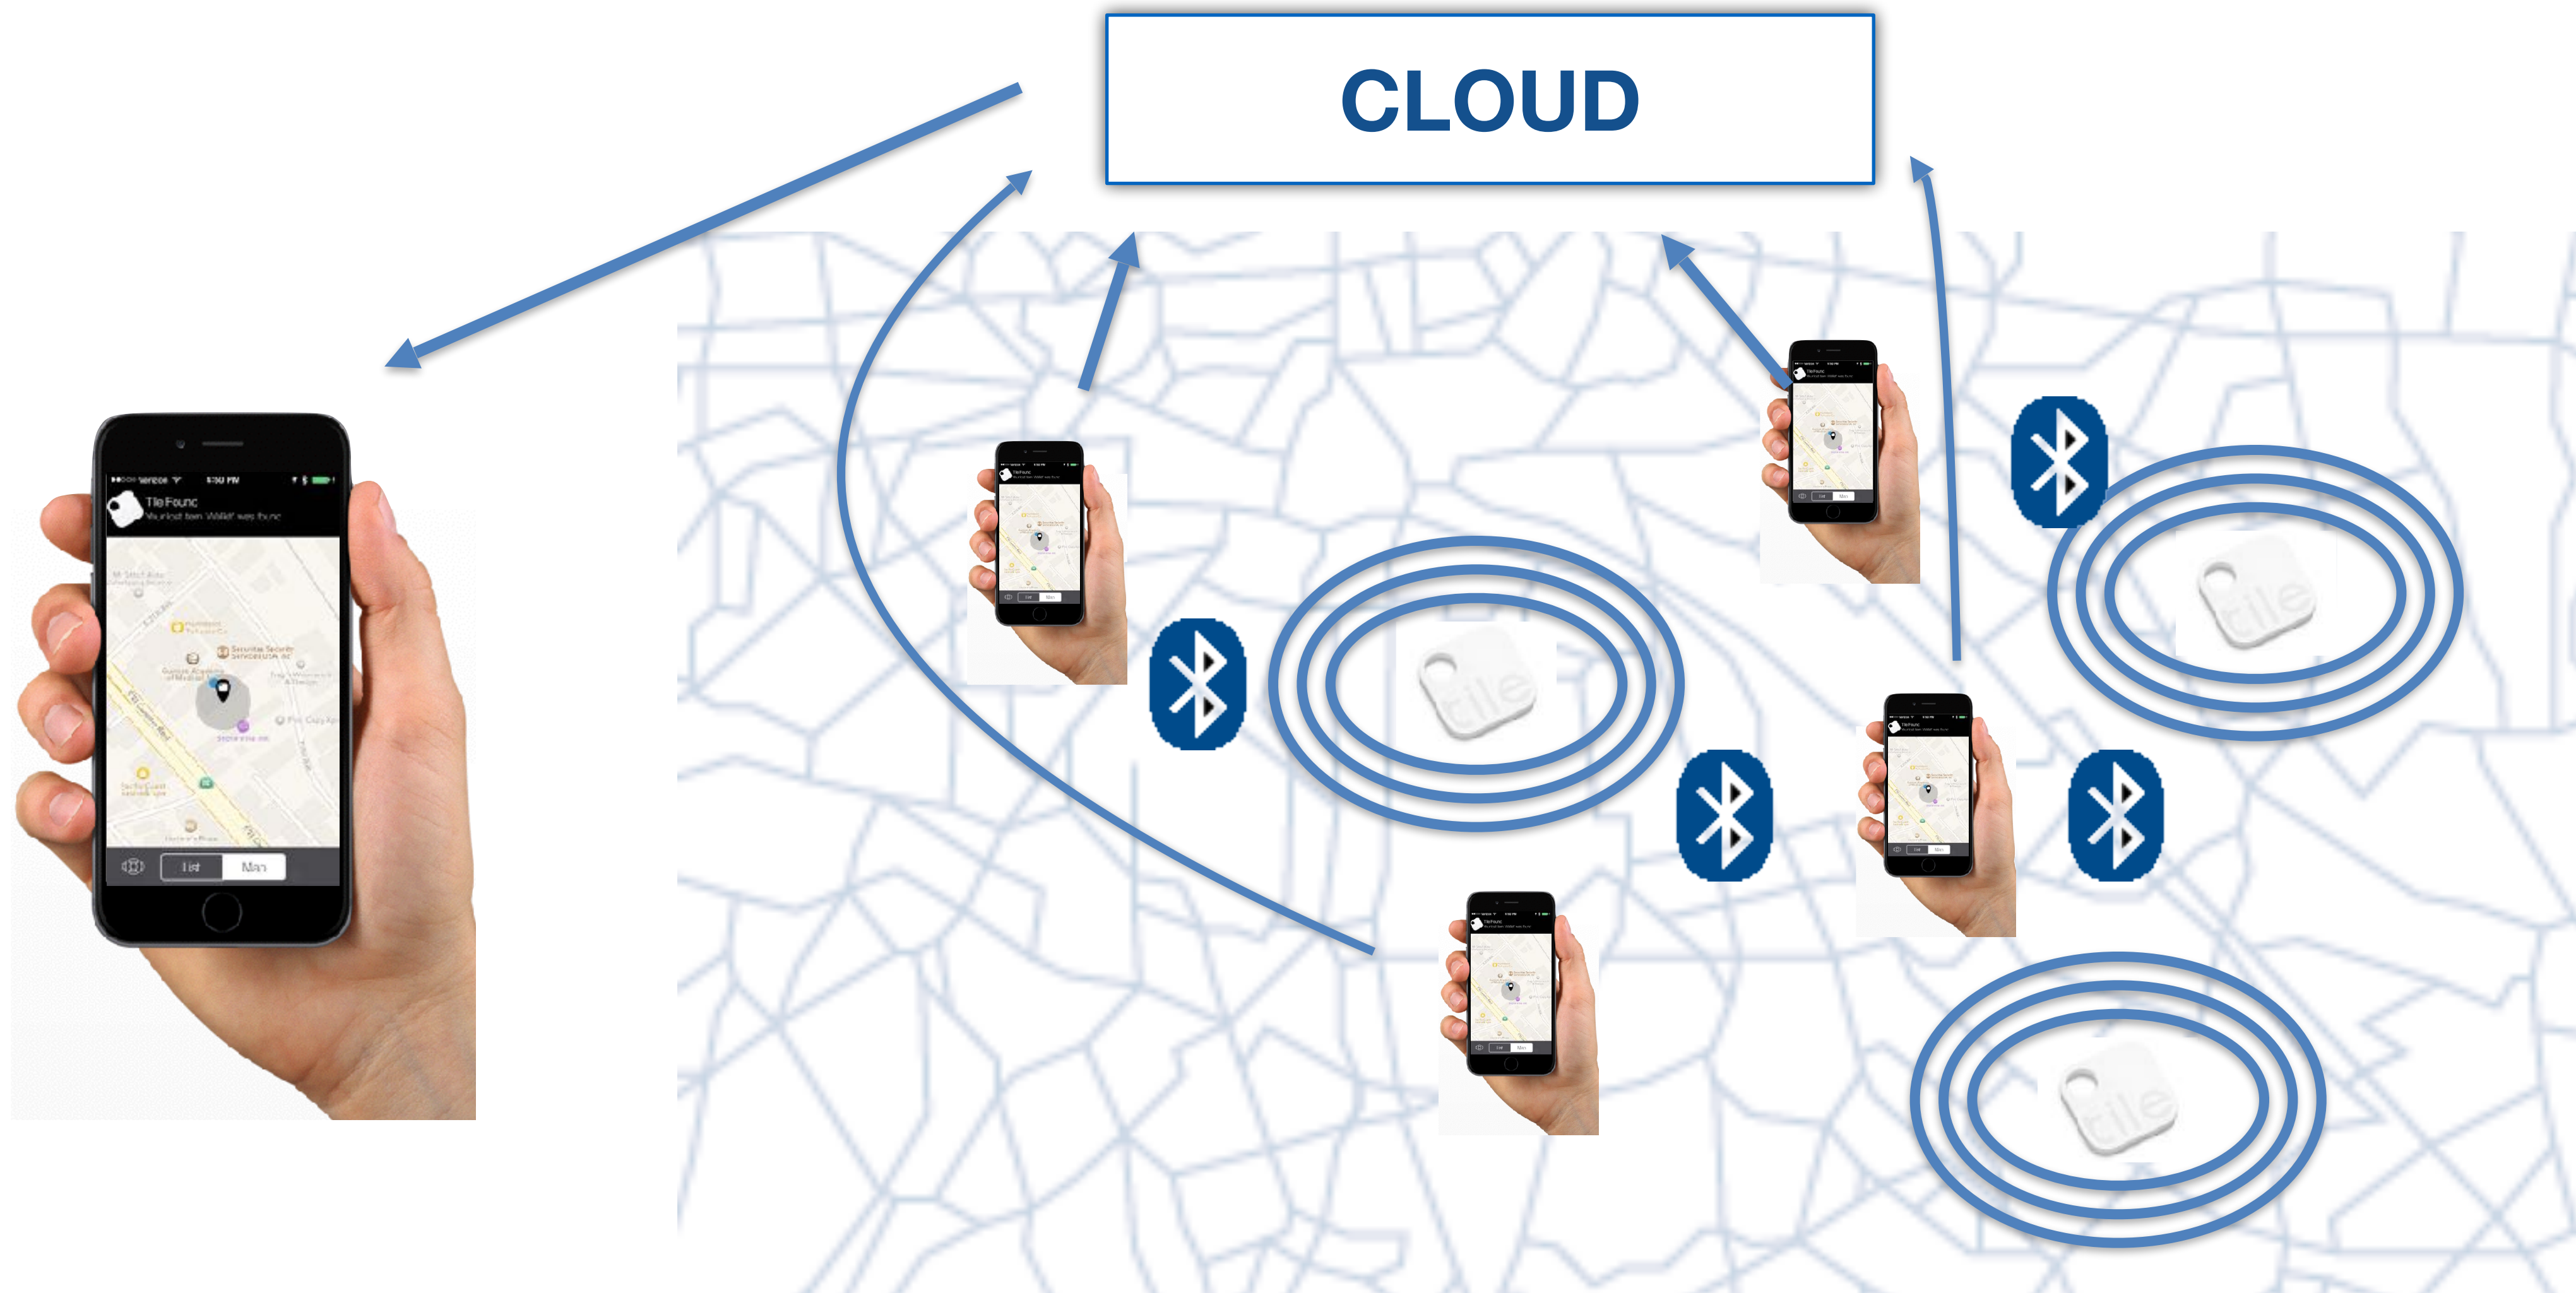

tile

TrackR™

Crowdsourcing Bluetooth location

CROWDLOC

- Low power Android & iOS SDK
- Supporting all BLE devices (beacons & consumer electronics)
- 100% software & B2B

CROWDLOC Alliance

**Fully Mutualized network
among CROWDLOC Alliance
partners.**

**Each app in the network is
searching for all Bluetooth
devices of the partners.**

Bluetooth developments

Bluetooth: Low Power to No Power

Startup Wiliot Promises No-Battery Bluetooth Beacons in 2019

By Samuel K. Moore

Posted 6 Nov 2017 | 14:30 GMT

Key Takeaways

- Huge, untapped market for location tracking in many verticals: The Internet of Lost Things
- Many new technologies but reality is often different from marketing (LoRa network-based location)
- Not a one fit all approach - different use cases, different technologies.
- CROWDLOC is open for business ;-)

Thank you!
