

Maps for autonomous driving?

7th GeoIT Wherecamp Conference 2017

André Heinrich, IAV GmbH Ingenieurgesellschaft Auto und Verkehr

IAV - Your Strong Engineering Partner

More than 30 sites worldwide

More than 30 years of experience

More than 6,800 members of staff

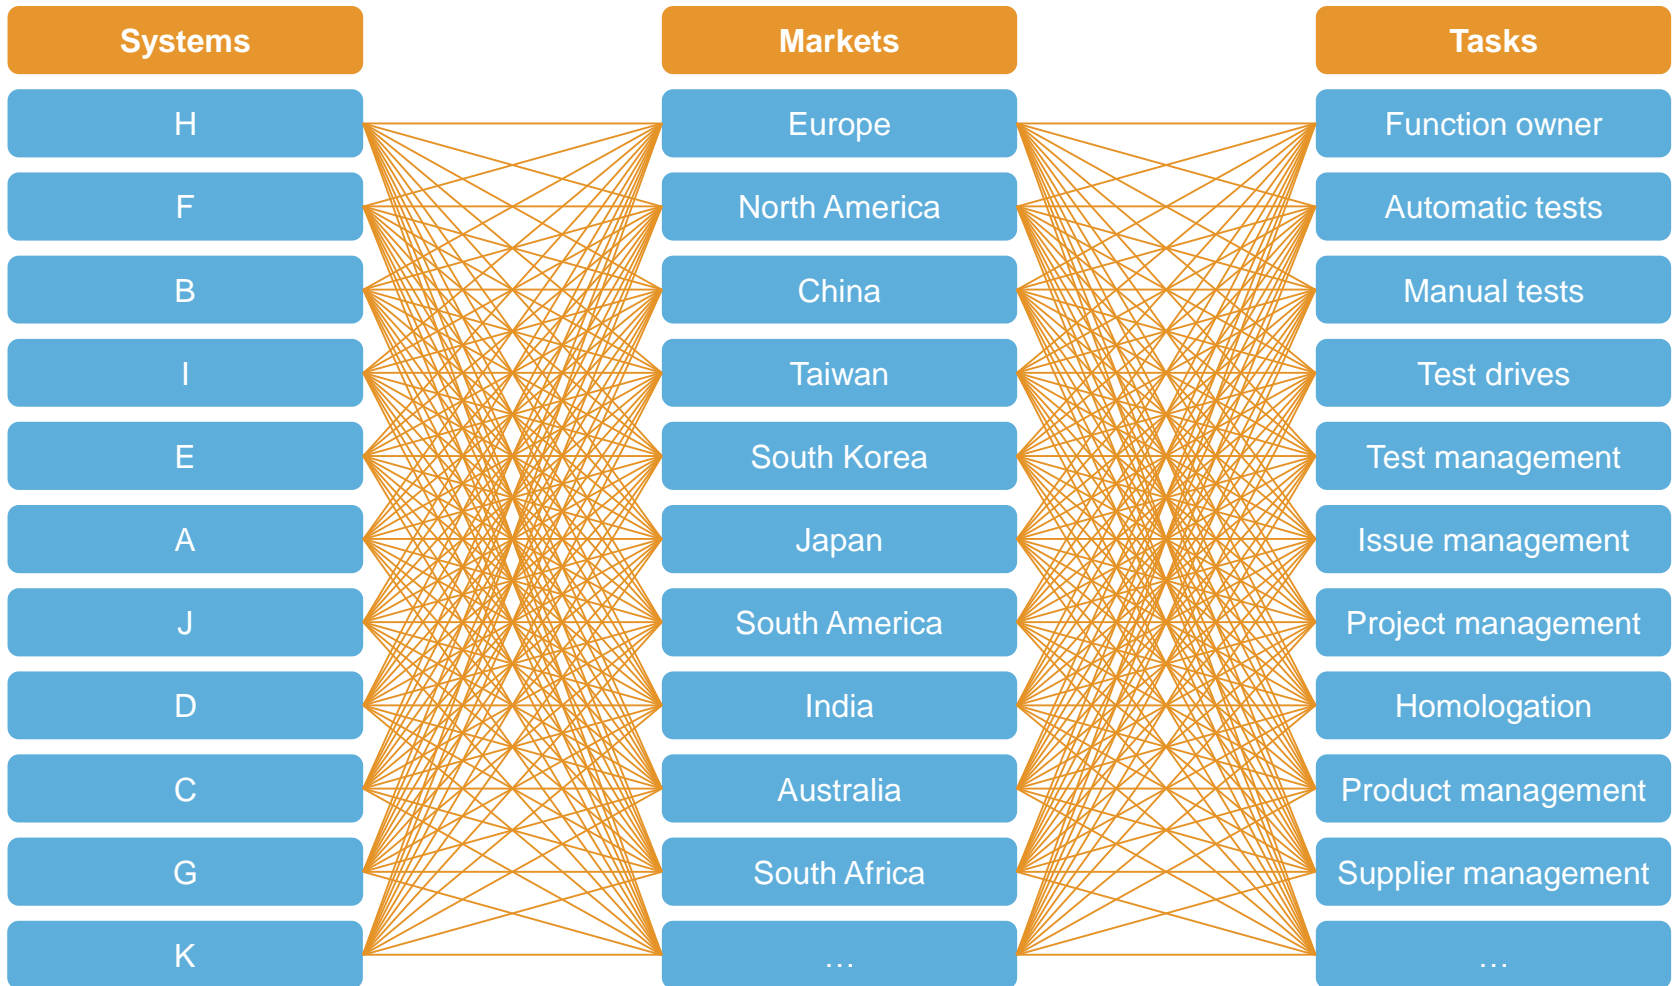

More than 68 % engineers

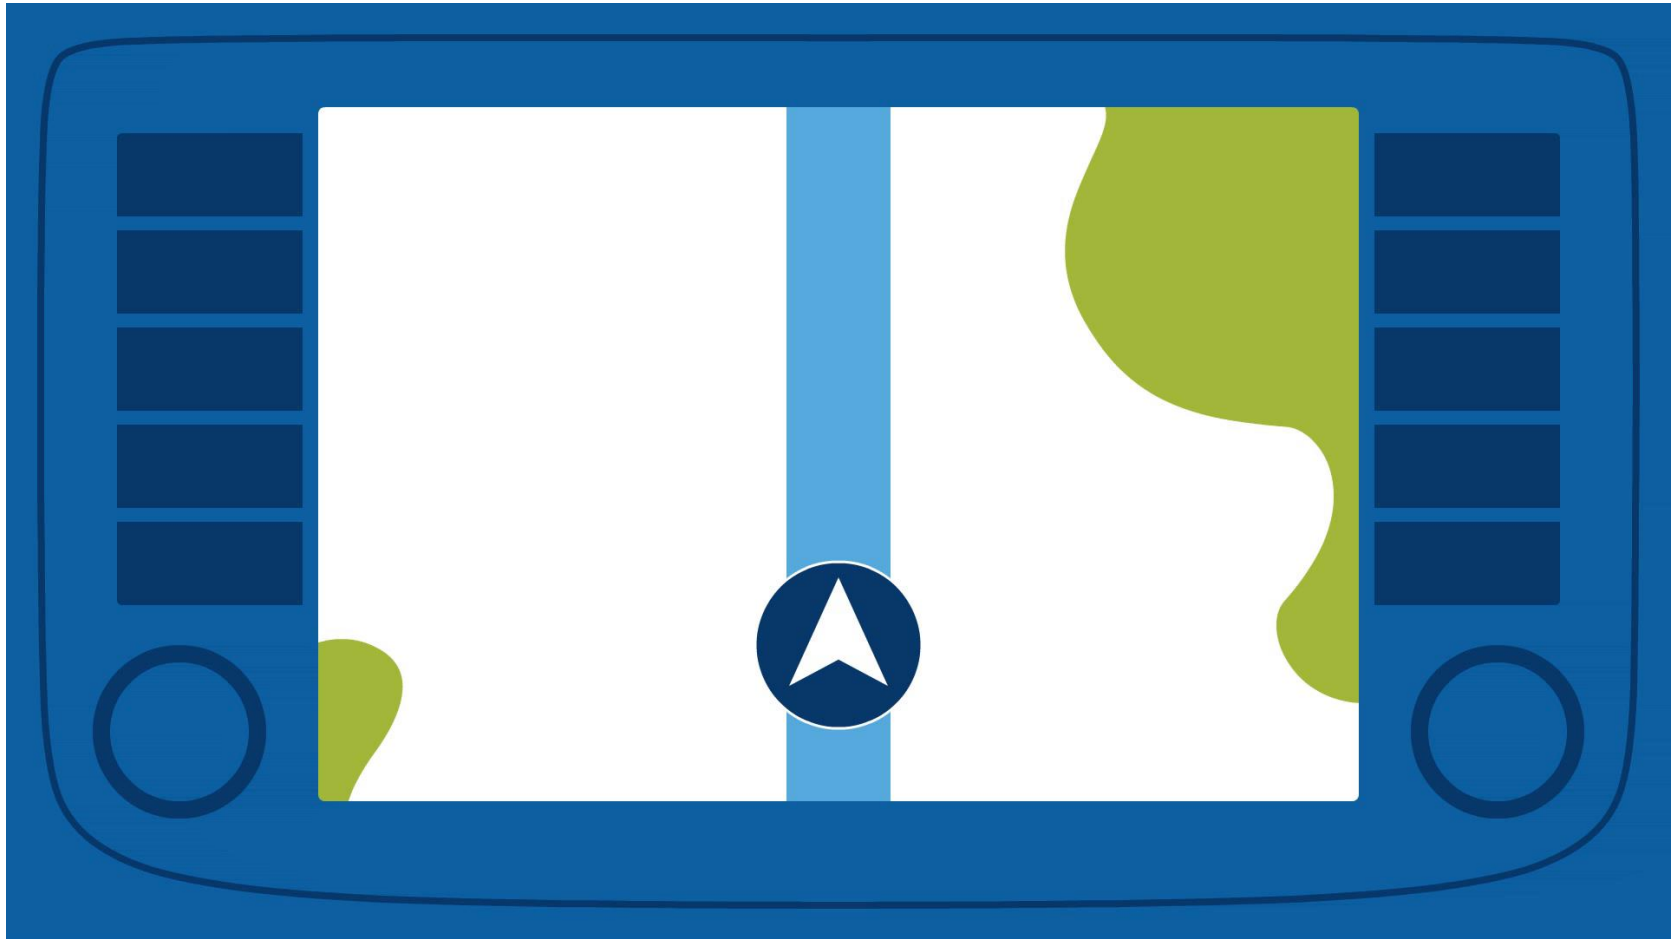

More than 750 annual turnover (€ m)

Develop databases for navigation systems

Auto adaptive maps - The concept

Auto adaptive maps - The research project

SAFARI

- Automated and connected driving in Berlin
 - Update HD map continuously
 - Stereo or 360° cameras or smartphones for environment detection
 - 5G technology for communication
- Funded by Bundesministerium für Verkehr und digitale Infrastruktur (BMVI)

SAFARI |  **DIGITALES
TESTFELD
STADTVERKEHR**

Maps for autonomous driving?

Current questions

- Are maps needed for autonomous driving or are sensors sufficient?
- Do we need maps for autonomous driving or geodata in the background?

Thank you

André Heinrich
